NOVEMBER 1952 ▲ WASHINGTON, D.C.

INTRODUCTION

This booklet is an annual publication which brings together in summary form data on conservation practices carried out, participation, the amount of assistance given, and related information with respect to the 1951 Agricultural Conservation Program.

The Agricultural Conservation Program, operating as a government-farmer partnership, provides assistance to encourage and aid the individual farmer in carrying out soil and water conservation practices essential to the national welfare. This assistance is in the form of materials, services and financial aid and it averages about 50 percent of the "out-of-pocket" cost of such conservation practices. All farmers are eligible to cooperate in this program but cooperation is entirely voluntary. Local administration is by county and community farmer-committees elected each year by their neighbors.

This program is aimed at obtaining maximum conservation on the largest possible number of farms. Soil and water conservation practices approved for assistance are those which are generally not being carried out to the extent needed to insure a continuing and expanding agricultural production.

Data with respect to participation in the various conservation practices under the 1951 Program (tables 1 and 2) were obtained from applications and performance reports. The amount shown under "Total credit value" in tables 1 and 2 was computed by multiplying the extent of a practice or sub-practice by the "Credit rate." The "Portion of State total" was obtained by dividing the total credit value for the practice by the total credit value for all practices in the State. The term "States" includes Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

Information by States for previous years has been published in earlier issues of this series, in "Agricultural Statistics," and in the annual reports of the Chief of the Agricultural Adjustment Agency and the Administrator of the Production and Marketing Administration. The Statistics included have been collected by county and State PMA offices.

Approved under Reports Control No. ACP-13P.

^{1/} For the years 1936 through 1943 the Agricultural Conservation Program included commodity payments and assistance for carrying out conservation practices. For the years 1944 through 1951 the Agricultural Conservation Program included only assistance for carrying out conservation practices, except as noted.

^{2/} Does not include turpentine places under Naval Stores Program.

^{3/} Persons receiving cash assistance or Conservation Materials and Services, including Naval Stores Program.

^{4/} Includes payment under Naval Stores Program.

^{5/} Insular Areas not included.

^{6/} Includes payments for potatoes and truck crops made from funds under Section 32, Public Law 320, 74th Cong.

^{7/} Includes \$22,455,000 for flax authorized by Section 5, Public Law 551, 78th Cong.

^{8/} Includes 1,130 farms for 1947 and 1,460 farms for 1948 which participated in manager-type pools, but which did not receive an individual farm payment. Also includes 28 farms for 1947 and 150 farms for 1948 operated by managers for pools who received payment only as managers.

^{9/} Includes 28 payees for 1947 and 150 payees for 1948 who were managers of pooling agreements and received payment only as managers.

^{10/} Includes 297 farms operated by pool managers, 1,433 farms under pooling agreements receiving no individual payment, and 87 farms receiving no payment because maximum payment to individual made on other farms.

^{11/} Includes 302 payees operating under manager-type pooling agreements.

^{12/} Includes 435 farms operated by pool managers, 4,686 farms under pooling agreements receiving no individual payment, and 35 farms receiving no payment because maximum payment to individual made on other farms.

^{13/} Includes 449 payees operating under manager-type pooling agreements.

^{14/} Includes 367 farms operated by pool managers, 3,789 farms under pooling agreements receiving no individual payment, and 30 farms receiving no payment because maximum payment to individual made on other farms.

^{15/} Includes 408 payees operating under manager-type pooling agreements.
